

KATIKALA PHANI SRI RAM

📍 Vishakapatnam, India | ✉ phanikatikala@gmail.com | 🔗 LinkedIn: ram_katikala | 📄 GitHub: phanikatikala-cmd

CAREER OBJECTIVE

I'm a dedicated Computer Science student with a keen interest in Machine Learning, Full-Stack Development, and Problem Solving. I find immense satisfaction in architecting and building robust, real-world solutions from end to end. Constantly seeking opportunities to expand my skill set, I'm committed to growing as a versatile developer and innovative problem-solver.

PROFESSIONAL EXPERIENCE

Machine Learning Intern | Spypro Security Solution Pvt. Ltd.

NOV 2023 - APR 2024

- Developed and optimized a machine learning-based dementia prediction system by performing data preprocessing, feature engineering, and model evaluation.
- Implemented multiple ML algorithms with hyperparameter tuning and validation, improving prediction accuracy and completing the end-to-end model development lifecycle.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java (Basics), C++, C
- **Machine Learning:** Data Preprocessing, Feature Engineering, Model Training, Evaluation Metrics, Scikit-learn, Pandas, NumPy, Matplotlib.
- **Web Development :** HTML, CSS, Javascript, React.js, FastApi, MongoDB, PostgreSQL.
- **CSE Fundamentals:** Operating Systems, Computer Networks, DBMS, Software Engineering.
- **Soft Skills:** Problem Solving, Communication, Teamwork, Leadership, Professionalism

EDUCATION

GAYATRI VIDYA PARISHAD COLLEGE OF ENGINEERING

Aug 2024 - PRESENT

Major : Computer Science & Engineering | CGPA: 9.03

A.A.N.M & V.V.R.S.R POLYTECHNIC

JUN 2021 - APR 2024

Major : Computer Engineering (CME) | Percentage: 93.8 %

PROJECTS

Dementia Prediction Model

NOV 2023 - APR 2024

Internship project | Spypro Security Solution Pvt. Ltd.

- Developed and deployed a dementia prediction system using Random Forest with SMOTE and cross-validation, achieving 98.6% accuracy across the complete ML pipeline.
- Built a real-time prediction web application and collaborated with stakeholders to ensure usability and domain relevance.

Versatile AI Assistant: Desktop App for Generative Tasks

JUN 2023- DEC 2023.

Academic Major Project | A.A.N.M & V.V.R.S.R Polytechnic,

- Developed a Python desktop AI application using OpenAI APIs for code generation, content creation, image generation, and text-to-speech with a customizable PyQt5 GUI.
- Implemented prompt-based workflows, error handling, and integrated media outputs to improve usability and overall user experience.

ADDITIONAL INFORMATION

Certifications:

- The Complete Web Development Bootcamp – Udemy (Angela Yu)
- Machine Learning A–Z – Udemy (SuperDataScience Team)
- AWS Cloud Architecture – Amazon Web Services
- Google AI-ML Virtual Internship – EduSkills
- Python Certification – Infosys Springboard
